

# Leon Nockolds

Video Editor / Digital Designer / Web Developer

📞 07809 876536

✉ leonnockolds@gmail.com

📍 Norwich, UK

A creative, versatile and thorough digital designer, with a proven track record of delivering projects on time and within budget, across multiple platforms. In-depth knowledge of Adobe Premiere Pro and Photoshop, with motion graphics, animation, graphic design and web development experience.

Having recently worked in various freelance positions, I am now seeking a full-time role to apply and develop my existing skills in a creative environment.

## EXPERIENCE

---

### **Freelance Video Editor, BBC Studios.** September 2023 - Present

Editing video content for the Planet Earth III series launch. Responsible for creating the online teaser trailer and editing and captioning episodic clips. Followed by a return to the scripted comedy team creating video content for social media platforms. Episode clipping, video encoding, captioning and creating motion graphics across the Lucas & Walliams, Baby Cow, Live at the Apollo and Funny Parts channels, gaining millions of combined views.

### **Freelance Web Developer, The Boat Pod.** April 2023 - September 2023

A six month project developing the Boat Pod website, from UX design to launch. Building a back end scheduling system to deliver live video and music content to thousands of worldwide visitors. Successfully launched in September 2023.

### **Freelance Video Editor, BBC Studios.** October 2021 - March 2023

Working within the scripted comedy team creating video content for use on social media platforms. Involving editing, encoding, captioning and creating motion graphics. Extensive work on the launch of the Lucas & Walliams YouTube channel, providing edited clips and compilations as well as designing templates for video thumbnails.

### **Freelance Digital Designer.** August 2020 - October 2021

Web design and development projects to enhance user experience for We Out Here Festival, Americanafest UK and Reform Radio. Website coding and deployment, involving video editing, encoding and using live video feeds. Graphic design work for Whosampled.com, Tottenham Hotspur, Barclaycard, Aviva and Adnams amongst others.

### **Web Designer/Developer, KLIK Ltd.** September 2012 - August 2020

A key role in the team that produced the online John Peel Archive. Website design and development, physical research along with video encoding, editing and captioning. Leading the continued design and development of Pupil Asset, an education tech product helping schools successfully track pupil performance.

### **Web Designer/Developer, Whosampled.com.** 2012

Responsible for redesigning and developing the company website, serving content to over one million users per month. Providing layouts to back-end developer for deployment and ongoing design of website assets.

### **Digital Designer, Sky UK Ltd.** 2008 - 2011

Working within Sky Betting & Gaming, preparing animated banners, designing website content and editing green screen video for Sky Bet, Sky Vegas, Sky Poker and Sky Bingo.
